Absent but not Forgotten.

We clip the following from the Virginia Free Press of Aug. 26, pub. lished at Charlestown, West Virginia: "REV. Dr. McQUEEN.

We had the pleasure on Sunday last of listening to a very able discourse South Carolina, who has been visiting in this county for some days past, the ment of Messrs. [COMMUNICATED.]

Few persons pay proper attention to this important subject.

Merchants generally insure their stock of goods, but they who may be considered the most prudent class of the community frequently leave their dwelling houses and premises uninsured.

In the United States from the organization of the Government, to the year 1870, two thousand millions of dollars, have been consumed by fire, exclusive of losses by war.

It is estimated that one dollar and a half, out of every one hundred dollars is consumed by fire every year.

Yet an immense amount of insureable property is left uninsured all the time. For a very trifling sum all these losses could be avoided, or rather, could be made to fall upon a large number of persons in very small sums.

For 21e. per day, \$1,000 can be insured at 1 perc.; for 51c. per day \$1,000 can be insured at 2 per c. &c. The cost is trifling and the security

n good companies is complete.

Except for the wealthy, Insurance is duty. It is a duty to one's creditor, to one's family and to one's self.

From a circular issued y the Andes Insurance Co., of Cinciunatti, C. H Moise, agent for Sumter, it appears that t has cleared nearly a haif a million in twelve months. It has paid its stock holders 10 per cent, and its stock is now worth 115 exclusive of the 10 per cent dividend.

Mr. Bennett, the experienced President, finds the business increasing so fast that he is about getting up two new companies with half a million capital each. We commend this new and energetic company to the public and feel assured they will do well to place a portion of their insurances in such good SAFETY.

The concluding passages of Gen. Ewing's speech present so forcibly the mission of the Democratic party, that they deserve a conspicuous place in every journal devoted to the rights and liberties of the people. We cannot commend them too highly :

"In this contest the Democratic party is the sword and buckler of the people. It has fought every existing School and miscellaneous Books, now abuse, and tried to apply every approtore. Dobilly and Emaciation Both result from the deak of shillty to penver the food into autriment. How necessary, then, for those suffering from these starming symptoms from Rev. Dr. McQueen, of Sumter, to immediately resort to a remedy that will strengthen the stomach and digestive organs. For, as soon as this desirable object has been accomplished, the health improves, and the patient resumes his usual personal appearance. Hostet-ter's Stomath Bris's thive attained a world wide popularity in such cases, and have been proven trust this may not be his last visit in our county. We clip the following paragraph from the Sumter Watchman.

We learn that Rev. Dr. McQuiers and depression of spirits. Its cheering and benecial effects are highly spoken of by thousands, who awe to it their restoration to health. No restorative in the annals of medicine has attained the same popularity in the short space of time it has been before the pablic, or has won the high endorsements accorded to this excellent tonic. rectives and restoratives, have been introdu and have perished one by one, while the popularity of Hostetter's Stomach Bifters continues to increase, and is now recognized as a standard household medicine. The success which attends the use of the Bitters evinces at once its virtues in all cases of debility and disease of the stomach. Certificates, almost without number, have been published, attesting its truly miraculous power in removing those painful and fearful seases. And at this time it seems idle to do more than call attention to the great remedy of the age, in order to awaken public attention to its excellence. It is the only preparation of the kind that is reliable in all cases, and it is therefore worthy of the consideration of the afflicted.
